

## Vessel Wi Fi

Vessel WiFi is a mobile Internet access service offered on your vessel. The service is permanently connected to your vessel so there is no need to order or bring any additional equipment or software. To obtain service all you need to do is to log on to the vessel's Wi-Fi system when you arrive on board and purchase one of the available packages listed below. Stay connected 24/7 while you sail The British Virgin Islands. Skype, YouTube, Google talk, Facebook, Surf the Net, from the comfort of your boat.

We accept:   

Our mobile Internet access service keeps your devices continuously connected to the net while you are on this vessel. At times you may experience slower response rates and bandwidth than traditional land based services. You may also experience temporary interruptions depending on the location of the vessel. This is normal and an inherent factor of mobile communications.
